

ECONOMIC DEVELOPMENT SURVEY

The Economic Development Committee is interested in what types of businesses our members & residents would like to see in Affton. The committee will be meeting with developers and commercial real estate agents working on filling some of the vacant stores and to be successful, it has to be businesses that will be supported by the community.

What businesses do you go outside of Affton to patronize? We would like to hear from our members, either with a type of business or an actual business name. Place an "X" on the list below or add to the list and place an "X" after it. The list below was gleaned from a survey we did about 18 months ago asking the same question. We would like to have all surveys returned to the chamber office by January 15, 2005. **Chamber members—if you sign your name & company, we will put your name in a drawing for some restaurant coupons.** Thanks for participating.
